

ONLINE LODGEMENT

Submitting an AFM loan application has never been easier with the use of systems Loanapp and Applyonline. To help you maximise the benefits of using both systems, we've put together this handy guide outlining all the things you need to know when submitting your applications online.

		
How do I get login details?	Email accreditations@afm.com.au	Email accreditations@afm.com.au
Where do I go to access?	https://account.loanapp.com.au/lender-afm.au.auth0.com/Account/Login	https://www.applyonline.com.au/Login/Decentralised/Login.asp
Which aggregator CRM is integrated with this system?	Connective	All aggregators
Do I need a broker number for submission?	No	No. AFM do not issue individual broker numbers. If the submission page asks for a broker ID or code, enter "12345" to bypass this step.
Is there an in-built servicing calculator?	Yes. The servicing calculator in Loanapp is programmed to the exact requirements for each product.	No. You will need to rely on the servicing calculator contained within your aggregator's system.
Are the forms in the system dynamic generated?	Yes. After submission you will only be required to have the signature pages completed and signed.	No. Due to system constraints you will need to obtain the AFM Online Submission Lodgement Pack and submit these documents in conjunction with the applyonline application form. The AFM Online Submission Lodgement Pack can be downloaded from the aggregator CRM or from the Broker Portal at www.afm.com.au
How do I provide the supporting documentation?	Loanapp has full upload capability. A dynamically generated checklist is provided to you after your application has been submitted outlining all the supporting documentation required which you can then upload and submit to us.	You can upload supporting documents via applyonline or alternatively email newloans@afm.com.au
